# User Analysis of AUMS

Name   :Arjun C Snathosh
RollNo:CB.EN.U4CYS21010

this is a login page for the Amrita University Management System (AUMS).
This is a web based functionality provided to students and faculty by amrita to keep track of their data

To use AUMS, users must first log in using their Amrita University username and password. Once logged in, users will be able to access the various resources and services available through the application. For example, students may be able to view their grades, schedules, and transcripts, while faculty and staff may be able to access information about courses, students, and other administrative tasks.

One of the key features of AUMS is its use of a single sign-on (SSO) system, which allows users to access multiple resources and services with a single login. This means that once users have logged in to AUMS,

they do not need to log in again to access other services or resources within the application.

Once loged in user are is presented with a dashboard on first notice we can see a navbar another one on the side a calendar and announcement and a amma quote

December 2022

	<	Today	>

Sun	Mon	Tue	Wed	Thu	Fri	Sat
27	28	29	30	1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	31

aums is user friendly but can be challenging to new users as there is need to memorize some of the location of the some of the content

But as you can The Heading of it Btech..2021 R.Com 14 only part of it visible and we cant infer which it belong to as the data provided is not enogh and we can only find what it is if we hover over it if we click any of the option there is no option of accessing other from it only way is to click the icon   and chose other option

.
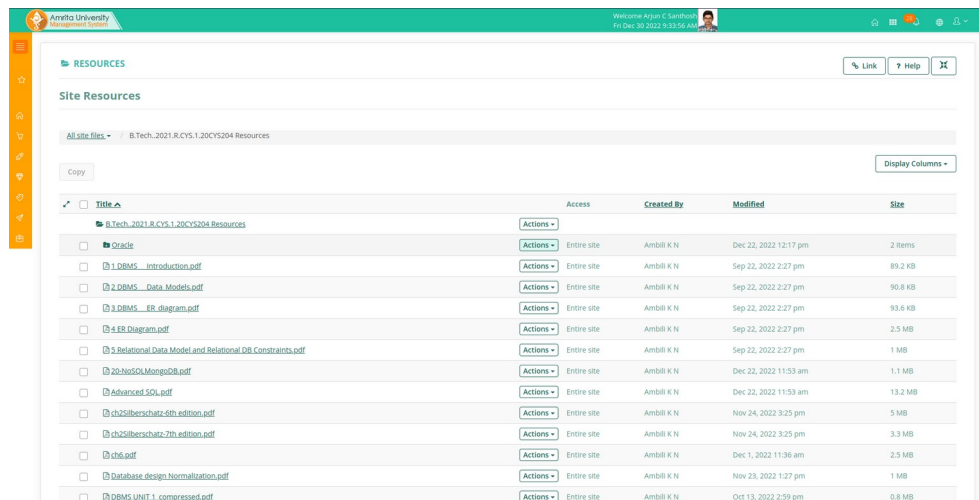

The choice of Color palate shoud have been like red and white than green ,orange and white

red and white is the more in sync which amrita
